 - a) Each competitor shall be equipped in accordance with the regulation 3.1 governing equipment;
 - b) The climbing rope shall be tied to each competitor's climbing harness using a figure of eight knot and a stopper knot.
 - c) Before the competitor begins their attempt on a route, the belayer shall check that the rope is secured to the competitor's harness in accordance with the above, and that the harness is properly fastened;

- 2.1.3 The belayer must at all times during a competitor's attempt on a route pay careful attention to the progress of the competitor to ensure:
- a) That the competitor's movements are not assisted or hindered in any way by the rope being too tight;
 - c) That all falls are stopped in a dynamic and safe manner; (see “NGB Advice for Belaying at Climbing Competitions”)
 - d) That no excessive falls shall be experienced by the competitor being belayed;
 - e) That great care be taken to ensure that in stopping a fall a competitor shall not be exposed to injury caused by the edge of an overlapping section or any other feature of the climbing wall.
- 2.1.4 On successfully completing a route or in having stopped a fall, the competitor shall be lowered to the ground. Care shall be taken to ensure that the competitor does not come into contact with any ground-based equipment.
- 2.1.5 The Category Judge may replace any belayer at any time during the competition. If replaced, a belayer shall not be permitted to perform that role for any further competitor at that event.

2.2 Height Measurement and Time Keeping

- 2.2.1 The organisers shall arrange a judging team, specifically responsible for providing a height measurement, time keeping and results. The results will be given to the NGB, wall and competitors at the end of the competition. The belayer and judge may be the same person.
- 2.2.2 A results service will be provided if possible.
- 2.2.3 The route setters will provide judges with route maps.
- 2.2.4 Routes:
- a) The final hold on each route shall be assigned a point value of 99.
 - b) On routes to be top-roped, matching the final hold with both hands scores 100. Each successive hold beneath the top shall be assigned two points fewer (i.e. 97, 95, 93, etc.). Each competitor will have a maximum time of 6 minutes on each route.
- 2.2.5 Boulder Problems:
- a) The final hold on each problem shall be assigned a point value of 59.
 - b) Matching the final hold with both hands scores 60. Each successive hold beneath the top shall be assigned two points fewer (i.e. 57, 55, 53, etc.). Each competitor will have a maximum time of 6 minutes on each problem.
- 2.2.6 No hold shall be assigned a value less than zero.
- 2.2.7 The number of falls prior to gaining the highpoint on problems shall be recorded and used to split tied competitors where applicable.

2.2.8 A climb shall be considered successfully completed if it is climbed in accordance with the regulations and rules and the climber holds the last marked hold in control from a legitimate position with either:

- a) one hand for climbers in the arm amputee disability categories.
- b) both hands for climbers in all other disability categories.

2.3 Competition Starting Lists

2.3.1 Due to the drop in nature of these events, there will be no competitor start lists, competitors may attempt the routes and boulder problems in any order they wish.

2.4 Climbing Wall

2.4.1 The side-edges and the top-edge of the wall shall not be used for climbing unless specifically marked.

2.4.2 If there is a need to demarcate a climb on the wall in order to clearly separate it from another, the demarcation shall be made using clearly identifiable colouring and marking of holds.

2.4.3 The starting position for each route must be clearly marked.

2.5 Wall Maintenance

2.5.1 The Forerunner shall ensure that an experienced and practised maintenance team is available throughout each round of the competition in order to perform any maintenance and repairs ordered by the Chief Judge in an efficient and safe manner. Safety procedures shall be strictly enforced. The Chief Judge shall be authorised to demand the dismissal from the competition area of any person who fails to observe safety procedures.

2.5.2 Repair of holds: On the instruction of the Chief Judge, the Forerunner shall immediately arrange for any repair work. On completion of a repair the Forerunner shall advise the Chief Judge whether the repair results in any unfair advantage or disadvantage to the following competitors. The decision of the Chief Judge to continue, or to stop and re-start, that climb of the competition shall be final and no appeal shall be accepted in respect to this decision.

2.6 Medical Facilities

2.6.1 The organisers shall arrange skilled and experienced medical support to be available throughout the whole of the competition. During every competitor's attempt on a climb, at least one qualified, experienced and equipped member of the medical team should remain within, or in very close proximity to, the competition area in order to provide a rapid response following any injury or need for medical attention.

2.7 Photographers and Television Camera Crews

2.7.1 With the approval of the Event Coordinator and Chief Judge, photographers and television camera crews may be permitted to operate in the competition wall area. They shall be allowed to do so on the understanding that:

- b) They do not distract or interfere with a competitor during their preparation for, or their attempt on, a climb;
- c) They do not distract or interfere with any belayer and her/his assistant;
- d) That any mechanical equipment used to support camera crews and equipment does not interfere with the competitors and/or belayers. Special care shall be taken to ensure that any fall does not result in a competitor coming into contact with any camera crew personnel, cameras or associated equipment.
- e) That all camera crew personnel obey immediately any instruction given to them by an official event Judge;
- f) Photographers and television camera crews may operate from the top of the wall subject to the approval of the Chief Judge. No use of excessive or changing lighting patterns, or any activities which might interfere with a competitor during their attempt on a climb, shall be permitted.

2.8 Ranking After Each Event of the Series

2.8.1 After each event of the competition series, the competitors shall be ranked in their categories. Ranking points for that round for the overall series championship are awarded to a competitor if three or more other climbers compete in their category at that round (4 competitors in total).

2.8.2 In the case of a tie for first, second or third place after the final climb of any event, a count-back procedure shall be used such that the results of the individual climbs (boulder problems and routes) in that event shall be taken into account in separating tied competitors. The winner will be the tied climber to have gained the greatest number of 1st place results, or if this is the same 2nd place results, etc.

2.8.3 If after applying the procedure in Article 2.8.2 there are still competitors tied for first, second or third place the sum of the number of 'tops' is compared and the greater number is considered better.

2.6.4 If after applying the procedures in Article 2.8.2 and Article 2.8.3 there are still competitors tied for first, second or third place the sum of the number of attempts a competitor took to reach their high point on all boulder problems is compared and the lower number of attempts shall be considered better.

2.8.5 If after applying the procedure described in Article 2.8.2, Article 2.8.3 and Article 2.8.4, there exists a tie for the **second** or **third** place, those competitors shall be deemed equal.

2.9 Points Awarded for Each Competition Event

2.9.1 At the end of each event, the first thirty (30) competitors in each category not excluded under section 1.2 shall be awarded the following points:

1 st	100 pts	11 th	31 pts	21 st	10 pts
2 nd	80 pts	12 th	28 pts	22 nd	9 pts

9 th	37 pts	19 th	14 pts	29 th	2 pts
10 th	34 pts	20 th	12 pts	30 th	1 pt

2.9.2 The aggregate points shall be recalculated after each competition and the competitors having points shall be ranked in descending order of points accumulated. The ranking shall be made available after each event of the Series.

2.10 Ranking After the Last Round of the Series

2.10.1 After the final event of the series, those competitors that have accrued ranking points shall be ranked, and overall champions crowned in these categories only. Series prizes and national titles are awarded to a competitor only if they;

- i. accrue ranking points at two or more rounds in the Series **and**
- ii. participate in at least two rounds in the Series

2.10.2 In the case of a tie for first place, a count-back procedure shall be used such that the results of the individual climbs (boulder problems and routes) in the final be taken into account in separating tied competitors. The winner will be the tied climber to have gained the greatest number of 1st place results, or if this is the same 2nd place results, etc.

2.10.3 If after applying the procedure in Article 2.11.2 there are still competitors tied for first place the sum of the number of 'tops' is compared and the greater number is considered better.

2.10.4 If after applying the procedures in Article 2.11.2 and Article 2.11.3 there are still competitors tied for first place the sum of the number of attempts a competitor took to reach their high point on all boulder problems is compared and the lower number of attempts shall be considered better.

- 2.10.5 If after applying the procedure described in Article 2.11.2, Article 2.11.3 and Article 2.11.4 there exists a tie for the first place a super-final shall be held.
- 2.10.6 If a tie exists at the end of a super-final, the competitors that remain tied shall be deemed equal and the competition will be terminated.
-

3. COMPETITORS

3.1 Competitors' Climbing Equipment and Clothing

- 3.1.1 All equipment used by a competitor in a competition shall comply with CE standards unless otherwise specified by the IFSC and be in good serviceable condition. Each competitor shall be free to use whatever CE-marked make of harness (NOTE: the wearing of a seat/hip or full-body harness is compulsory), climbing shoes, chalk bag, climbing helmet (where the competitor chooses to do so), and clothing he/she prefers in accordance with the regulations specified in 3.1.
- 3.1.2 Failure to comply with these regulations shall result in disqualification from the competition.

3.2 Registration

- 3.2.1 All competitors eligible and wishing to compete in an event of a Series shall register no later than the time specified by the Chief Judge and published/announced by the Competition Organiser. It is the responsibility of each competitor to ensure that he/she is fully informed of all details appertaining to a competition.

3.3 Preparation Prior to Climbing

- 3.3.1 All climbing equipment and the knot used shall be inspected and approved by an authorised official
- i. both for safety and compliance with other regulations
 - ii. before the competitor shall be permitted to proceed to their attempt on their climb.
- 3.3.2 The approved knot is the "figure of eight" knot with a stopper knot.
- 3.3.3 Each competitor shall be regarded as entirely and solely responsible for the equipment and clothing that he/she intends to wear during his/her attempt on a climb.
- 3.3.4 Use of non-approved equipment, knots and/or clothing, or any non-approved modification of any climbing vest provided, or any infringement of any part of the regulations shall make the competitor liable for immediate disqualification.

3.4 Technical Incidents

3.4.1 A technical incident is defined as:

- a) A tight rope which either assists or hinders a competitor;
- b) A broken or loose hold;
- c) An improperly positioned quickdraw or karabiner;
- d) Any other occurrence that results in a disadvantage or unfair advantage to a competitor which is not the result of an action on the part of the competitor;

3.4.2 The belayer must leave an appropriate amount of slack in the rope at all times. Any tension on the rope may be deemed as an artificial aid or hindrance to a competitor and a technical incident shall be declared by the Category Judge.

3.4.3 A technical incident shall be dealt with as follows:

- a) If a technical incident is indicated by the Category Judge:
 - i) If the competitor wishes, and is still in a legitimate position, he/she may choose to continue to climb or accept the technical incident. If the competitor chooses to continue to attempt the climb no further appeal connected with that technical incident shall be accepted;
 - ii) If the competitor is in a non-legitimate position due to the technical incident, the Category Judge shall make an immediate decision on whether to declare a technical incident and thereby terminate the competitor's attempt on the climb (and in accordance with the rules governing technical incidents, permit the competitor a subsequent attempt).
- b) If a technical incident is indicated by a competitor:
 - i) While the competitor is climbing, the competitor must specify the nature of the technical incident and, with the agreement of the Category Judge, may continue or cease climbing. If the competitor is in a non-legitimate position due to the incident the Category Judge shall make an immediate decision and that decision shall be final. If the competitor elects to continue to climb, no subsequent appeal shall be accepted in respect to that technical incident.
 - ii) If a competitor falls and claims that a technical incident precipitated the fall, the Chief Routesetter shall immediately check (and where appropriate correct) the claimed technical incident and report to the Forerunner, Category Judge and the Chief Judge. The decision of the Chief Judge (having taken into account the technical incident and any misuse of a hold by a competitor) shall be final and no appeal shall be accepted in respect to this decision.
- c) The competitor subject to a confirmed technical incident shall be allowed a recuperation period. The competitor must decide immediately when he/she wishes to start his/her next attempt on the climb which must be after the immediately following competitor and before the fifth following competitor. The competitor shall be allowed a minimum of 20 minutes between attempts on the climb;
- d) On completion of a legitimate attempt on a climb, a competitor shall be recorded as having achieved the best result of their permitted attempts on the climb.

- 3.4.4 A climb shall be considered successfully completed if it is climbed in accordance with the regulations and rules and;
- a) in the case of a top-rope or boulder problem, if the climber 'holds' the last marked hold from a legitimate position with both hands.

3.5 Climbing Procedure

- 3.5.1 Individual routes or problems will be allocated a maximum of 6 minutes during which a competitor may attempt the climb (or, in the case of a boulder problem, complete their turn).
- 3.5.2 An attempt by a competitor shall be deemed to have started when all parts of the body have left the ground.
- 3.5.3 A competitor may ask the Category Judge at any time during their attempt how much of their allotted time remains and the Category Judge shall immediately inform the competitor of the remaining time. When the allocated time has ended, the Category Judge shall stop the competitor and instruct the measurement procedure to take place. A competitor who fails to obey the Category Judge's instruction to stop climbing shall be liable to the disciplinary procedures.
- 3.5.4 During their attempt on a route:
- a) The competitor shall clip the quickdraws in sequence. A competitor is in a legitimate position to clip a quickdraw either as long as his/her entire body has not moved beyond the karabiner at the lower end of the quickdraw in the line of the route, or as long as the competitor can clip the quickdraw without having to back climb along the line of the route. Back climbing means that a competitor leaves holds with both hands when moving from the original position. Any violation of this rule shall result in the competitor's attempt on the route being terminated and a measurement taken. The refusal by a competitor to obey the instruction of a Category Judge to terminate their attempt on a route shall make the competitor liable to the disciplinary procedures.
 - b) In special circumstances (e.g. in the interests of safety) the Chief Judge shall be authorised to amend Article 3.5.4a) above and decide that a particular quickdraw shall be clipped from a particular hold, or earlier. This information shall be announced to the competitors during the briefing, and the actual hold and the quickdraw shall be clearly marked, preferably with a blue cross, and pointed out immediately prior to the competitor's attempt at the route. Any movement made by a competitor after the marked hold without him/her having clipped the marked quickdraw shall not be taken into account for scoring.
 - c) A competitor may down-climb at any point during their attempt on a route as long as he/she is not in violation of Article 3.5.4a) or returns to the ground.
 - d) Where a competitor clips the rope into a karabiner in accordance with Article 3.5.4a) above but where some technical error has occurred, the competitor shall be permitted to clip the next karabiner in sequence and then unclip and re-clip (if necessary, by down-climbing) the previous karabiner. At the end, all the protection points must be clipped in.

Note: Back clipping is not classified as a technical error.

e) The Category Judge may order that the attempt be terminated and the greatest height (or greatest distance) measured if he/she decides that to proceed further would contravene the safety regulations.

3.6 Height Measurement

3.6.1 In the event of a fall or the Category Judge instructing a competitor to stop climbing, the highest handhold held (or in the case of a traverse or roof section of a climb, the furthest handhold held), in the line and in the climbing sequence of the climb as determined by the Forerunner, shall be measured. Each handhold shall be deemed as such by the Forerunner before the start of the competition or following positive use by a competitor during the competition.

3.6.2 As determined by the Category Judge:

- a) A climber having 'held' a hold shall be awarded the point value of the hold;
- b) A climber having 'held' a hold and having made a climbing movement in the interest of progressing along the climb shall be awarded the point value of the hold plus one point.
- c) A climber will be awarded 100 points for successfully completing a route in accordance with Article 2.2.4
- d) A climber will be awarded 60 points plus two bonus points for successfully completing a boulder problem in accordance with Article 2.2.5 at their first attempt.
- e) A climber will be awarded 60 points plus one bonus point for successfully completing a boulder problem in accordance with Article 2.2.5 at their second attempt.
- f) A climber will be awarded 60 points for successfully completing a boulder problem in accordance with Article 2.2.5 at their third attempt.

3.6.3 If a competitor touches a point devoid of holds (as specified by the Forerunner), this shall not affect the assessment of the number of points achieved by the competitor which shall be made according to Article 3.6.2.

3.7 Termination of an Attempt on a Climb

3.7.1 Successful Attempt on a Climb:

A competitor shall be deemed to have successfully completed an attempt on a climb if that attempt is in accordance with Article 3.5 above.

3.7.2 Unsuccessful Attempt on a Climb:

A competitor shall be deemed to have unsuccessfully completed an attempt on a climb if he/she:

- a) Falls;
- b) Exceeds the permitted time for the climb;

- c) Makes use for climbing of any part of the wall, holds or features which have been demarcated against use for climbing;
 - d) Makes use for climbing, with his/her hands, of holes provided in the climbing wall for the placement of bolt-on holds;
 - e) Makes use of the side edges or top edges of the wall for climbing;
 - f) Makes use of hangers (including its bolts) or quickdraws for climbing;
 - g) Once having started, touches the ground with any part of the body;
 - h) Uses any artificial aid;
- 3.7.3 In cases where walls have not been stripped of out of bounds holds the category judge shall use discretion where a competitor mistakenly uses a wrong hold. It is often enough to inform the competitor to move their hand or foot off the offending hold, especially if no advantage has been gained.
- 3.7.4 Each competitor has only one attempt on a route and up to three attempts on a boulder problem.
-
