

Everest The Hard Way

By Doug Scott

In 1975 Dougal Haston and Doug Scott completed the first ascent of Everest's massive South West Face

In this lecture Doug describes not only the climb but how his life led up to this defining moment and the climbers, such as Don Whillans, Nick Estcourt, Paul Braithwaite, Chris Bonington, who helped to make the climb possible

This talk is lavishly illustrated with Doug's celebrated mountain photography

Doug will also be selling and signing the first volume of his autobiography - Up and About - which ends with Everest the Hard Way

See the back of this sheet for dates
